Abstract

This is a short example document to show how to use LaTeX.

1 Introduction

Hello, world! This is a sample LaTeX file. You can write equations like

$$E = mc^2$$

or inline math like $a^2 + b^2 = c^2$.

2 Figures

Here's an example of including a figure (commented out so it won't error):

3 Citations

You can add citations later if you include a '.bib' file.
